

CSA1505 - CLOUD COMPUTING AND BIG DATA ANALYTICS

Experiment-9

9. Create a simple cloud software application for Hospital information system for SIMATS Hospital using any Cloud Service Provider to demonstrate SaaS with fields of patient name, age, address, phone, email, Attender name, attender phone, doctor name, diseases, etc.

AIM:

To develop a simple Hospital Information System for SIMATS Hospital using Zoho Creator (Cloud Service Provider) to demonstrate the Software as a Service (SaaS) model. The application stores patient, attender, and doctor details, and manages patient registration through a cloud-based platform.

PROCEDURE:

- Log in to Zoho Creator.
- Create a new application named SIMATS Hospital Information System.
- Design a form with fields for patient name, age, gender, address, phone number, email, attender name, attender phone, doctor name, disease, appointment date, consultation fee, registration date, and patient status.
- Configure the required field types and drop-down values.
- Create a workflow to automatically record the registration date and set the patient status to Registered.
- Save and publish the application.
- Enter sample patient details and verify that the information is stored correctly.

INPUT:

The screenshot shows a web application interface for 'SIMATS Hospital Information System'. The top navigation bar includes the application name, a 'Development' tab, and user information ('-MySelf-') with a 'View as' dropdown and a '30 days' expiration notice. A sidebar on the left contains a menu with 'Patient Information' (selected) and 'Patient Information Report'. The main content area is titled 'Patient Information' and displays a form with the following fields and values:

Field	Value
Patient Name	Hari
Age	20
Gender	Male
Address	chenoail
Phone Number	+91 9940729595
Email	hariprakash91414@gmail.com

OUTPUT:

Patient Name	Age	Gender	Address	Phone Number	Email	Attender Name
Hari	20	Male	chennai	9940729595	hariprakash91414@gmail.com	Naveen
Kiran	19	Male	chennai	9626471648	kiran12@gmail.com	Ram
prasanth	25	Male	chennai	6382885668	prasanth12@gmail.com	prabha

DESIGN:

Patient Name:
 Age:
 Gender:
 Address:
 Phone Number:
 Email:
 Attender Name:

RESULT:

A cloud-based Hospital Information System was successfully developed using Zoho Creator. The application stores patient, attender, doctor, and treatment details, automatically records the registration date, updates the patient status, and demonstrates the Software as a Service (SaaS) model using a cloud platform.
