

CSA1505 - CLOUD COMPUTING AND BIG DATA ANALYTICS

Experiment-10

10. Create a simple cloud software application to run a c program to display the student information using any Cloud Service Provider to demonstrate SaaS with the template of student name, reg no, address, phone, age, courses, grades and attendance report, progress report, Semester mark sheet forms

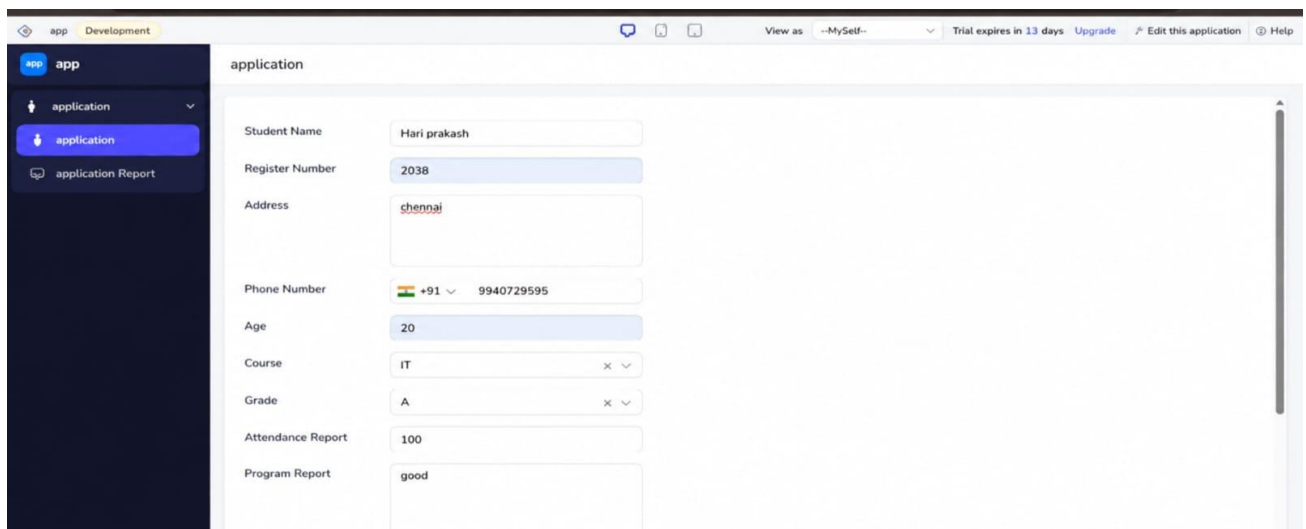

AIM:

To develop a simple Student Information System using Zoho Creator (Cloud Service Provider) to demonstrate the Software as a Service (SaaS) model. The application stores student information, attendance, grades, progress reports, semester mark sheets, and a C program related to student information.

PROCEDURE:

- Log in to Zoho Creator.
- Create a new application named Student Information System.
- Design a form with fields for student name, register number, address, phone number, age, course, grade, attendance report, progress report, semester mark sheet, C program, and date.
- Configure the required field types and drop-down values.
- Create a workflow to automatically record the current date and time.
- Save and publish the application.
- Enter student details, upload the semester mark sheet, and store the C program.
- Verify that all details are saved successfully.

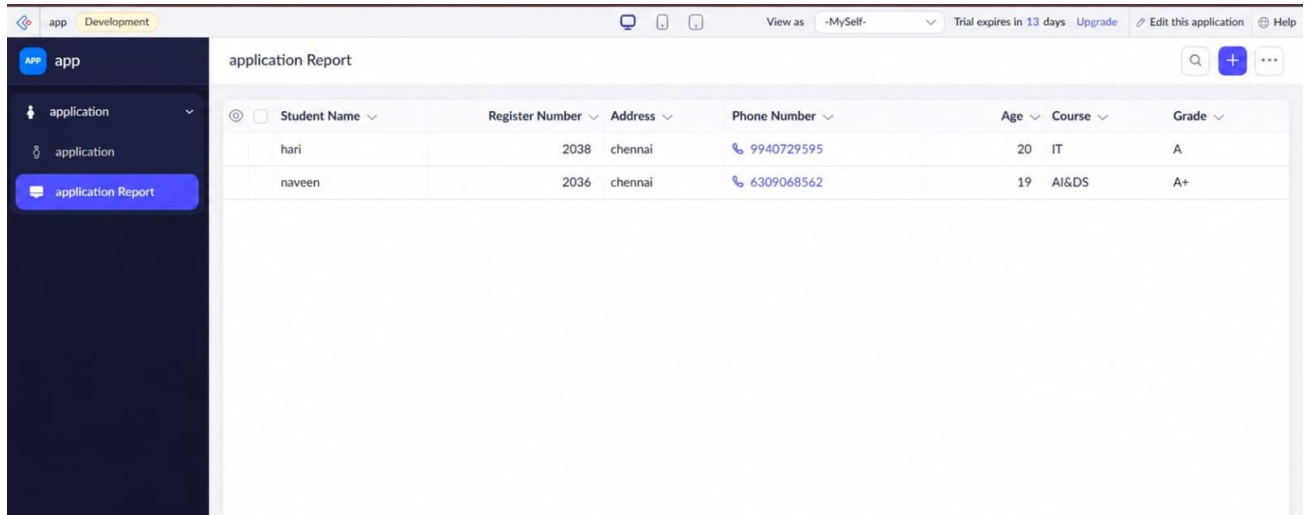

INPUT:

The screenshot shows the Zoho Creator interface for an application named 'application'. The form contains the following fields and values:

Field	Value
Student Name	Hari prakash
Register Number	2038
Address	chennai
Phone Number	+91 9940729595
Age	20
Course	IT
Grade	A
Attendance Report	100
Program Report	good

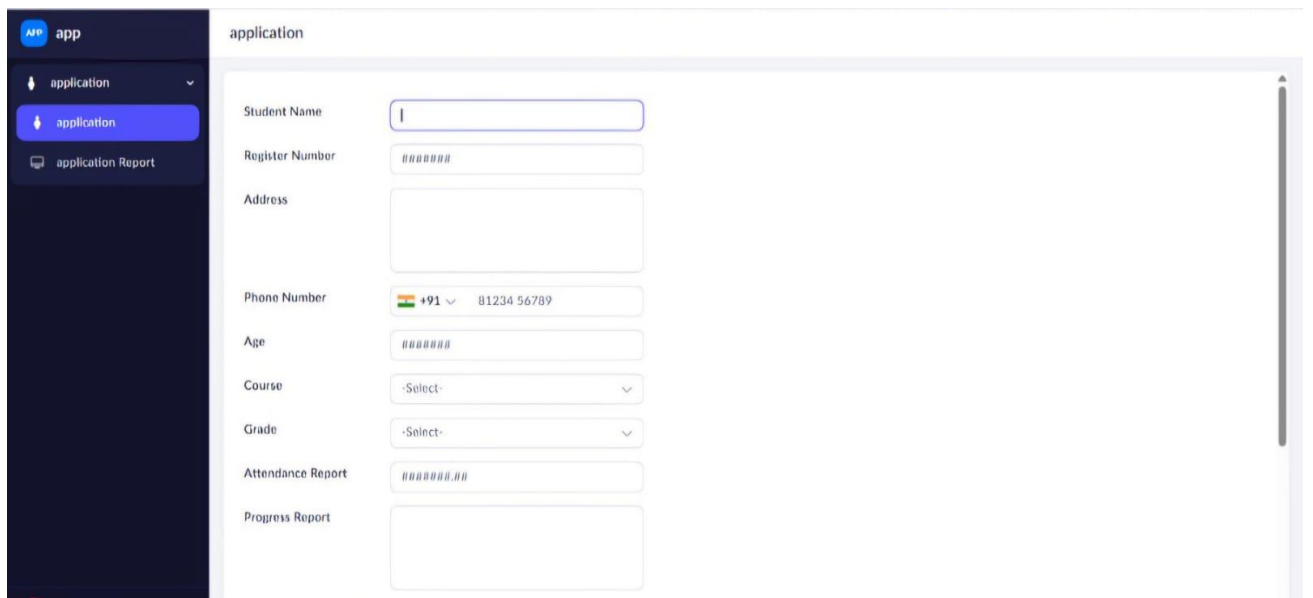

OUTPUT:

The screenshot displays the Zoho Creator interface for an application named 'app'. The left sidebar shows a menu with 'application' and 'application Report' (highlighted). The main area shows a table titled 'application Report' with columns: Student Name, Register Number, Address, Phone Number, Age, Course, and Grade. The table contains two rows of data.

Student Name	Register Number	Address	Phone Number	Age	Course	Grade
hari	2038	chennai	9940729595	20	IT	A
naveen	2036	chennai	6309068562	19	AI&DS	A+

DESIGN:

The screenshot displays the Zoho Creator interface for an application named 'app'. The left sidebar shows a menu with 'application' and 'application Report' (highlighted). The main area shows a form titled 'application' with fields for Student Name, Register Number, Address, Phone Number, Age, Course, Grade, Attendance Report, and Progress Report.

Student Name	Register Number	Address	Phone Number	Age	Course	Grade	Attendance Report	Progress Report

RESULT:

A cloud-based Student Information System was successfully developed using Zoho Creator. The application stores student personal and academic information, attendance records, grades, progress reports, semester mark sheets, and a C program. This demonstrates the implementation of the Software as a Service (SaaS) model using a cloud platform.
